An "IZAKAYA" is a type of Japanese drinking establishment which also serves food to accompany the drinks. The food is usually more substantial than those offered in other types of drinking establishments in Japan. Most izakaya and some restaurants that serve alcoholic beverages give an **automatic extra charge "OTOSHI"**, often with a small appetizer. Don't get offended! Although, you have a right to refuse them. I know that's not your style, but when you see the unknown small extra charge on your check at the end of the night, please understand it as a Japanese style!
